Remark: 1. "\(\triangle \)" represents Internal Circuit Feature: A. C. E...Common Cathode, B. D. F...Common Anode. 2. "\(\subseteq \)" represents LED Emitted Color.

3. All dimensions are in millimeters (inches), tolerance is \(\pm \) 0.25mm(0.01") unless otherwise noted.

4. All the products are RoHS-compliant

5. Supplier will reserve authority on material change for above specification.
